

DIWAN RAMADHANI DWI PUTRA

diwanrdp6@gmail.com | +6281278437207 | Bandar Lampung | [LinkedIn](#) | [GitHub](#)

SUMMARY

Informatics Engineering student specializing in data analysis and data science, with proficiency in Python, SQL, Excel, and Tableau. Experienced in building end-to-end analysis pipelines and interactive dashboards from real-world datasets to deliver actionable insights that support data-driven decision making, with hands-on experience in web development.

EDUCATION

Institut Teknologi Sumatera

Agustus 2023 – Present

6th Semester, Bachelor of Informatics Engineering

- **GPA:** 3.44 / 4.00

MAN 2 Bandar Lampung

July 2020 – May 2023

Mathematics and Natural Sciences

- **Final Grade:** 88.05

EXPERIENCE

Institut Teknologi Sumatera

Practicum Assistant – Fundamentals of Digital Technology

September 2025 – December 2025

- Assisted ±70 students in understanding digital literacy, data security, and current technology ethics.
- Guided data processing using Google Sheets (formulas, VLOOKUP, Pivot Tables, and data processing).
- Introduced the use of AI and effective prompting techniques, along with understanding ethical risks and bias.
- Taught basic automation using Google Apps Script to improve work efficiency.
- Responsible for class management, assignments, quizzes, and learning evaluation.

Practicum Assistant – Introduction to Computers and Software I & II

September 2024 – June 2025

- Assisted ±70 students across two terms covering computer history and fundamentals, Excel, Word, VBA Macro, and basic C++ programming.
- Guided students through branching, loops, nested loops, arrays, and matrix operations in arrays.
- Responsible for assigning tasks, quizzes, grade evaluation, and weekly 100-minute study sessions.

Tutorial Assistant – Basic Mathematics

September 2024 – December 2024

- Guided ±60 first-year students through foundational mathematics, helping 85%+ of students pass weekly assessments throughout the semester.
- Delivered 16 structured weekly sessions including quizzes and progress evaluations over one semester.

PROJECTS

Beijing Air Quality Analysis Dashboard | [GitHub](#) | [Streamlit](#)

Individual Project – DBS Foundation Coding Camp × Dicoding

- Delivered a full end-to-end data analysis project on Beijing air quality data across **12 monitoring stations** (2013–2017), earning a **5-star rating** from the course reviewer.
- Applied **outlier handling**, **missing value imputation**, and **time-series aggregation** on **420,000+ hourly records** using **Pandas** and **NumPy** to ensure data integrity before analysis.
- Uncovered consistent seasonal pollution patterns and inter-station disparities through **PM2.5 trend analysis** and **multi-station comparison**, visualized with **Matplotlib**, **Seaborn**, and **Folium**.
- Deployed an interactive **Streamlit dashboard** enabling dynamic exploration of air quality patterns across all monitoring stations.

60KUIZ – Smart TV-Based Interactive Learning Platform | [GitHub](#) | [Demo](#)

Project Coordinator

- Led end-to-end project development from design to deployment using **Next.js**, **Tailwind CSS**, and **Vercel**.
- Designed the application architecture to ensure **performance and scalability** across Smart TV interfaces.

- Implemented a **question randomizer algorithm** for dynamic quiz variation and a **real-time timer and scoring system** to enhance learning interactivity.

AI Bot with Greedy Algorithm in Etime Diamonds Game | [GitHub](#)

Team Leader

- Developed 4 Python-based greedy algorithms for bot decision-making strategy selection.
- Built the main AI bot using a time-weighted greedy algorithm to maximize decision-making in diamond collection under time constraints.
- Integrated each bot algorithm with mathematical calculations of logic functions, time ratios, and risk assessment to determine the optimal moment to return to base.
- Directly contributed to programming and guiding the algorithm development direction.

COMMITTEE EXPERIENCE

ABATA – Aksi Bina TPA

September 2025 – December 2025

Consumption Division

- Participated in a community service program through Quranic education (TPA/TPQ) development around ITERA.
- Coordinated with all committee members in the preparation and execution of events.
- Involved in internal committee activities and supported the smooth running of the program throughout one period.

IGTTPB – Informatics Goes To TPB

November 2024

Class Mentor Coordinator

- Coordinated a mentoring class of ±80 new students as part of academic orientation for the Informatics Engineering program at ITERA.
- Assisted in facilitating sharing sessions from the student association and study program as part of academic orientation activities.
- Organized and conducted quiz sessions, material presentations by senior students, and interactive discussions in class.

TRAINING & CERTIFICATIONS

- **DBS Foundation Coding Camp × Dicoding – Data Science**

February 2026 – Present

Intensive Scholarship Participant

- **Digital Talent Scholarship × DQLab – Data Analytics**

July 2025

Participant

SKILLS

- **Programming** : Python, SQL, C++, JS.
- **Data Tools** : Tableau, Power BI, Google Sheets (Advanced).
- **Technical Skills** : Data pre-processing, Statistical Analysis, Prompting AI.
- **Developer Tools** : Git/GitHub, VS Code, Google Colab.
- **Productivity** : Microsoft Office, Google Workspace
- **Languages** : Indonesian (Active), English
